By Matthew Caines Updated September 22, 2017 Call of Duty: Black Ops is a first-person shooter released on Xbox 360 in 2008. There are a lot of scammers in the game that users can take advantage of if they know the correct codes. One particular code opens a zombie multiplayer map and a zombie arcade game called Dead Ops Arcade. You can open these zombie modes yourself by entering a specific scam code in the main menu. Entering cheat codesThot the CD into your Xbox 360 drive and wait for the console to download the game. Wait for the main menu screen to load. The main menu display shows the test room from the point of view of the person tied to the chair - there should be a TV in front of your character in the middle of the screen. At the same time, tap the left and right trigger buttons on the controller, then continue tapping the buttons until the character is released from the chair and rises. Then move your character in the test room with the left analog stick of the controller and follow the room to the left until you find a small black computer. It is worked against the wall and must have white writing on the screen. Hold the X button on the driver in front of your computer to access the password screen. Zombie MapsType 3ARC UNLOCK on your computer when you have access to the password screen - there should be a mini keyboard in the upper right corner of the screen to type. Click enter on the mini-keyboard to activate the code. This allows you to unlock not only the tasks of the game, but also the zombie-based map and zombie arcade game. The zombie map is called Five and allows players to connect with each other to fight hordes of undead zombies. The characters to be played on the map are John F. Kennedy, Richard Nixon, Robert McNamara and Fidel Castro. The Five map also features gameplay features such as using elevators and an enemy called Pentagon Thief.Dead Ops ArcadeEntering 3ARC UNLOCK scam also offers Dead Ops Arcade mode. You can use Dead Ops Arcade from the Zombies and Solo options in the main menu. Nniiden the game itself is above the view of the shooter who pits your character against a pack of zombies. There are several weapons and for power reasons to pick up and the game is divided into rounds, so once you've killed several zombies, you can move your character to the next area for the next series of zombies. There are 40 rounds overall and when you lose all the spirits of your character - you start with three - the game is over and you have to restart the game. Other scamsYou can enter other scam codes into your computer in the main menu. For example, type ZORK on your computer and you can unlock a secret text-based adventure game to play. By feeding ALICIA, she also opens a secret virtual therapist game called Alicia. The minigame works by asking questions that you need to answer by typing them on the mini-keyboard. The game will provide an answer based on your answer. The game cannot be completed and the question and answer format will continue as long as you want to play. Play.
